

# MLNC TRAINING ROOM

MLNC workshops are held in the MLNC Training Room at the rear of the building on the main level.

When entering from the rear of the building, go straight through the foyer. You will see the atrium, and the MLNC Training Room is to the right of the atrium.

If you enter the building from the front, you will need to follow the hallway to the rear of the building. Go past the atrium, turn left and the MLNC Training Room is on your left, across from the elevator. Handicapped access is through the front of the building. (See the map below for the layout of the building.)
